CONTENTS

PART 1. JUNE

PAGE

BONNIER, G., and HANSSON, A. (Wiad). Identical twin genetics in cattle . 1

BILLINGHAM, R. E., and MEDAWAR, P. B. (Birmingham). Pigment spread and cell heredity in guinea-pigs' skin 29

MÜNTZING, A. (Lund). Accessory chromosomes in *Poa alpina* 49

HEUTS, M. J. (Louvain and New York). Adaptive properties of carriers of certain gene arrangements in *Drosophila pseudoobscura* 63

PÄTAU, K. (Berlin and Merton). X-segregation and heterochromasy in the spider *Aranea reaumuri* 77

DODDS, K. S., and SIMMONDS, N. W. (Trinidad). Sterility and parthenocarpy in diploid hybrids of *Musa* 101

SMITH-WHITE, S. (Sydney). Polarised segregation in the pollen mother cells of a stable triploid 119

SANGER, RUTH, RACE, R. R., WALSH, R. J., and MONTGOMERY, CARMEL (London and Sydney). An antibody which subdivides the human MN blood groups 131

PESOLA, V. A. (Jokioinen). Rye and wheat breeding in Finland . . 141

PART 2. SEPTEMBER

LEDERBERG, JOSHUA (Madison, Wisconsin). Problems in microbial genetics 145

FINNEY, D. J. (Oxford). The estimation of gene frequencies from family records. I. Factors without dominance 199

LEWIS, D. (Merton). Structure of the incompatibility gene. I. Spontaneous mutation rate 219

RACE, R. R., SANGER, R., and LAWLER, SYLVIA D. (London). Allelomorphs of the Rh gene C 237

HASKINS, CARYL P., and HASKINS, EDNA F. (Schenectady, New York). Albinism, a semi-lethal autosomal mutation in *Lebistes reticulatus* . . 251

HARLAND, S. C. (Lima, Peru). Inheritance of immunity to mildew in Peruvian forms of *Pisum sativum* 263

FISHER, R. A., and SNELL, G. D. (Cambridge). A twelfth linkage group of the house mouse 271

REVIEW : Genetics, Medicine and Man 275

GENETICAL SOCIETY OF GREAT BRITAIN : Abstracts of Papers . . . 277

PART 3. DECEMBER

PAGE

BURNET, F. M., and FENNER, FRANK (Melbourne). Genetics and immunology 289

L'HÉRITIER, PH. (Paris). Sensitivity to CO_2 in *Drosophila*—A Review . . 325

BATEMAN, A. J. (Merton). Intra-sexual selection in *Drosophila* 349

FINNEY, D. J. (Oxford). The estimation of gene frequencies from family records. II. Factors with dominance 369

FRANKEL, O. H., and FRASER, A. S. (Christchurch, New Zealand). Basal sterile mutants in speltoid wheat 391

MAJUMDAR, D. N. (Lucknow, India). Rh frequency in the people of Lucknow 399

GENETICAL SOCIETY OF GREAT BRITAIN : Abstracts of Papers 403

INDEX 409
